REQUEST UNDER 35 CFR § 1.182 TO WITHDRAW JANUARY 15, 2002
NOTICE TO FILE MISSING PARTS OF NON-PROVISIONAL APPLICATION,
FILED UNDER 37 CFR § 1.53(b), AND TO HAVE PRESENT SUBMISSION
ACCEPTED AS COMPLETION OF APPLICATION

April 9, 2003

Hon. Assistant Commissioner
of Patents
Washington, DC 20231

Sir:

In response to a Second Filing Receipt Status Request mailed
January 28, 2003, applicants in the above-referenced patent application received

a courtesy copy of a January 15, 2002 notice to file missing parts of this application, mailed March 5, 2003. Copies of the January 31, 2003 status inquiry and the March 5, 2003 courtesy copy of the notice of missing parts are attached hereto behind Tabs 1 and 2, respectively.

Applicants' undersigned counsel respectfully submits that, because it can be demonstrated that the aforesaid January 15, 2002 missing parts notice was not mailed by the USPTO, or received by the undersigned or his firm, until approximately March 5, 2003, it should be deemed a nullity and withdrawn and that, to such extent, this request under 37 CFR § 1.182 should be granted. Further, it is respectfully submitted that all of the enclosures submitted with this request, taken together, constitute a completion of the above-identified application and, therefore, they should be accepted as such.

On March 26, 2003, an associate power of attorney to inspect the subject application file in the USPTO and make copies was given to John Semiklose of J. F. Brown and Associates. Because neither the undersigned nor his firm had previously before March 5, 2003, received any notice of missing parts (or abandonment) in this case, the purpose of engaging Mr. Semiklose was to have him ascertain if and when such notices had been created in the USPTO and when they were first mailed by the USPTO. Mr. Semiklose thereupon carried out his instructions and responded to the undersigned by means of an April 3, 2003 fax, 10 pages long, a copy of which is attached hereto behind Tab 3.

The Tab 3 document reveals that the table of contents of the USPTO file of the subject application records only applicants' original submission, i.e., no filing receipt, no notice of missing parts, and no notice of abandonment, nor any mailing dates for any of them. Of these three, only a copy of a notice of missing parts , dated Janaury 15, 2002, is to be found in the USPTO file

Given that the table of contents of the subject application's USPTO file recites no filing receipt, no notice of missing parts, and no notice of abandonment and no date(s) therefor in its "Date Mailed" column, it is respectfully submitted that, on the basis of the USPTO's own records, there can be no presumption that the USPTO contemporaneously mailed any of these documents to anyone. Indeed, the Tab 3 document shows that the USPTO's records give significant evidence that neither they, nor any one of them, ever left the premises of the USPTO prior to the sending of a courtesy copy of the notice of missing parts on March 5, 2003. It is further respectfully submitted that it follows from this legal reality that present applicants are entitled to have the January 15, 2002 notice of missing parts withdrawn.

That a copy of the January 15, 2002 notice of missing parts found in the subject USPTO file was not received by the undersigned or his firm prior to the March 5, 2003 courtesy copy is corroborated by the April 8, 2003 declaration (and exhibits) of Janet S. Wennberg, Records Department Manager for Darby & Darby, P.C., attached hereto behind Tab 4.

Accordingly, absent any evidence of any proper delivery by the USPTO, or receipt by applicants' counsel, of the January 15, 2002 notice of missing parts, it is a legal nullity and applicants and their counsel respectfully request its withdrawal. They also respectfully request that the fees and documents submitted herewith, taken together, be deemed a proper completion of the subject application, so that substantive examination thereof may proceed.

The fees being submitted herewith have calculated as set forth in the following:

<u>PATENT FEE COMPUTATION SHEET</u>
